INDIAN HILL

Index to 4

Omaha and Winnebago Agency
Nebraska September 10 1885

Sir: I have the honor to submit
my second annual report.
A complete census shows:

Males above 18 years of age	384
Females " 14 " "	417
Children between 6 and 16 "	282
All other ages	<u>150</u>
Total	1207

The past year has been one of
partial success, but has had its dis-
couragements and serious drawbacks.
Adverse circumstances affect
these people more than their white
neighbors. It is not a subject of won-
der that they are not prepared to
battle with adverse circumstances
with less than a generation of real de-
velopment while a hundred gen-
erations of advancement enables
the white farmer to look beyond
temporary discouragements and rally
from partial defeat. Our season for
planting was very unfavorable on ac-
count of continuous rains and cold
beyond the average of this latitude.
When planting was done much of the

seed was washed away by dashing
winds. This must be replanted. The
consequence was that most of the plan-
ting was later than it should have been.
Notwithstanding this the cultivated
land was nearly all planted and a fair
crop are the result, except the wheat
which ~~which~~ promised a fair winter
near maturity when it wintered badly re-
sulting in about a half crop. The aver-
age of corn is larger than last year by
at least ten per cent and the apples will
be equal to last year. While the spring was
backward the growing season was excellent
and the fall has been all that could be
desired for ripening. Much of the corn
is now safe from frost with everything
favorable for ripening. The foregoing
includes both the Omaha and Winnebago
Tribes.

The Winnebago have suffered on
account of the ^{suspension} ~~incomplete~~ completion
of the allotment. While many of them
knew where their land was to be others
did not, ^{and} many disputed claims were
unresolved. Under these conditions new
improvements could not be pushed
as we had hoped for. Few individuals
aligned that they were finally settled.

Under this condition there was not as much new land broken as I hoped for. Frequent changes of farmers during crop and breaking season was also a serious drawback. When a competent farmer is found change is always to be regretted as much time is lost while a new man is acquainting himself with his business. The Indians their lands on I was authorized to expend three thousand dollars in purchase of oxen for breaking new land. This was a timely aid although on account of the lateness of the season and difficulties stated above we did not get as much breaking done as I desired, yet many have made a good start, and when the people get settled I hope to demonstrate fully the wisdom of this expenditure. For the \$3000 I purchased twenty six yoke of good young oxen from to six years old. These will last for several years and their work will be of great value to these Indians in opening farms. These horns are generally too light for breaking new land. These Indians have many very good cows from the mass purchase for them two years ago, and they are getting a good start in crops.

fruits &c, and some have
a good start in home culture.
I can safely say that these people are
making substantial progress in self
support and towards wealth.

Improvements Agency and
Industrial school.

The Agency buildings have been
repairs and are in fair condition.
At the school a good substitution
has been 24 x 50^{ft} has been completed.
a commodious wood house 38 x 40^{ft}
an ice house, a system of water
works by which water can be carried
to all rooms in the house, also a com-
plete sewerage from kitchen and am-
bary. Repairs have been made in all
parts of the building and with a
trifle of additional work the whole
will be in excellent condition
and will accommodate about 100
pupils.

Education

The Industrial school has been
more successful than the preceding
year, although not the complete
success desired. The Indians have
done their part and kept the school
full, but the management of the

school was not a complete success as was finally brought to notice of the Dept by reports of Inspectors and near the close of the term a change was made. A decided improvement was an early result of the change. Under the present management I confidently expect good results for the ensuing year under the new superintendent.

Wicaccorany work

It occurs to my mind that if these people did not succumb better in caring for their bodies than the churches are doing for their souls they would long since have been cleaner than Mrs Potipher's Thimblekin. I repeat what I reported in last annual report. "These people suffering from neglect in this important aid to civilization"

Why is it that these people in the midst of civilization and almost under the sound of church bells on all sides for all these years are without even a place of worship. Their Medicine Lodge is the only place of religious pretence or worship. This I would break up.

if we had anything better to offer them. It is true that our Church occupies the ground by accident minutes without a place of worship. On this account the minutes can accomplish almost nothing. We have not even church organization.

Crime

These people are remarkably free from higher grades of crime. Not even a serious case of assault in the past year or theft of anything of value except their own time. This I have under control now except in a few cases. There is a marked public sentiment against the looseness of the marital relation and obligations. As they are now under the law of the state a case or two of enforcement of local law will finally settle this evil. This I intend to do as soon as a good case presents itself.

Clerical force

I have had no occasion for complaint in the last year on this account. The office work has been well kept by my present clerk as returns to your office will show. The clerk is

aided by school superintendents in making up their reports and by Dr. Hamilton who acts as issue clerk. W. H. McKeeven is a very competent and faithful clerk and I am under obligations to him for his faithfulness and very efficient services in aid of my work at this agency.

Work Shops

With only Indian employees the shops have done good service, and are quite equal to shops conducted by white men. They are really skillful in work. Their mechanics have also aided materially in the improvements for agency and school.

Quotas

A complete census shows.

Number of males over 18 years of age	287
" Females " 14 "	361
Children between 6 and 14	314
No other ages	<u>173</u>
Total	1135

This shows a decrease of 40 during the last year on account of the terrible scourge of measles, the whole number

of deaths being 87 most all of which was children who died of measles. Notwithstanding the heavy loss it was made up largely by births the number being 52

I cannot pretend to make a tabulated or statistical report of the Ojibwas as I have no means of collecting the facts in detail. I have traveled over a large part of this reservation during the summer and very recently. I can safely say that upon the whole they have made quite substantial gains over any former year. The broken land is about all in crops. The land broken last year is added to the acreage in crops and at least 500 acres of breaking has been done the past season. Quite a number of substantial frame houses have been erected some would be quite creditable for thrifty white farmers. Their corn crop is good but wheat as stated previously in this report an average of one half crop or eight to ten bushels per acre.

Schools

The domestic boarding school was quite successful until the

breaking out of measles. By strict
 quarantine as we could enforce we kept
 the scourge from the Industrial
 school for a long time after
 the Mission school was broken
 up from the sickness. We dismissed
 the school as soon as the disease ^{made}
 its appearance about June 1st & I repor-
 ted this action at the time to the Hon
 Com Ind Affairs. I could not have
 the outbreak when the disease broke
 out. It must be remembered that
 we have no police force there
 and parents take their children at
 will. Notwithstanding this condition
 the schools are well patronized. The
 average ^{attendance} at the Industrial school was
 about 65 pupils and ^{at} the Mission
 school about 40. Both of these
 schools have been well conducted
 during the year. I should probably
 make special mention of the Mission
 school as it has done excellent
 work. This school has attained a high
 state of perfection and the man-
 agement is deserving of praise.

(Morals)

I am sorry to report that the
 morals of these people are hardly

Keeping pace with their advances in other respects. While these people are placed under the laws of the state they are almost without law. They find no encouragement from the Counties to which they are attached to enter the courts even for the punishment of high crimes. For the reason that they contribute nothing towards the expenses of government as they have never been taxed. The result of this condition is that the evil of Bigamy and known evils are on the increase.

Besides this there are some cases of petty larceny &c. But when one considers that they are without law it is rather remarkable that there is so little crime. The public sentiment is healthy and discourteous wrong in every form. In my opinion some means should be devised to afford these people better protection of law. It is not reasonable to expect the counties to take interest in bringing offenders into their courts when the expense must be born by such counties.

For further report I refer to accompanying statistics all of which is most respectfully submitted.

9

This woman was carried on the Census of 1886, No. 865. She went to Wisconsin with her family, was dropped from the Census of the following year, but returned here the past winter with a child born in Wisconsin shortly after going there.

I certify on honor that the foregoing is a true & correct census of the Winnebago Indians on the 30th day of June 1889 to the best of my knowledge & belief.

Wm. F. Warren
U.S. Indian Agent
